- Holistic Approach
- Time Tested Methods
- Effective Strategies
- Hands-On Applications
- Affordable Capital Outlay
- Realistic Returns
- Great Value-For-Money

WELL TRAINED • WELL PRACTICED • WELL SUPPORTED • WELL REPUTED

## THE CHOICE OF PROFESSIONAL TRADERS

The Pattern Trader™ Tutorial and all its specialist workshops are designed for short-term traders and medium-term investors and anyone who is looking to improve their financial knowledge and status.

For more than twelve years, the Tutorial has evolved to become an all-encompassing, complete and holistic educational program for Finance and Economics. It has been the starting ground for many novice retail traders and has groomed many an institutional trader, financial analysts, bunker traders, dealers, brokers, remisiers and financial graduates from all over the world.

The Tutorial has outlasted almost all other financial courses to continue to support and grow its graduates well into its second decade. The belief is that financial education never ends and is always evolving. To stay the course and maintain this level of dedication takes a lot of *Passion, Energy and Stamina*, all of which the Pattern Trader™ has proven to have beyond any doubt.

The knowledge gained from the Tutorial will stand the graduate in good stead both online and offline. As most of our money is offline, it is only wise that we know what and where is safe and when to move it for better gains such as fixed-income securities, properties, businesses and investment products. It is imperative to know the difference between what is real and what is toxic or whether it is a scam.

# COMPLETE, HOLISTIC AND REALISTIC

This is the most complete financial syllabus that you're not going to find anywhere else because this is a very unique and exclusive program.

It is not for those who are dreaming about becoming millionaires or attaining financial freedom because this is not a bullshit program. Past graduates have testified that this is more complete than most MBA programs.

It is designed for those who wish to know everything about their finances and how economics can affect their money without attending a formal education.

The Tutorial gives the participant the knowledge and skills required to begin or accelerate their financial journey in the money markets online and offline.

This is material you will never find in books or workshops because those experiences only happen to the REAL MACROTRADERS who know how the market works, how the floor operates and how the institutions make it their killing field.

Annex: Post-Graduate Assignments

**Plus - Workstation & Trading Grids Familiarisation Workshop**

## BASIC TO INTERMEDIARY TO EXPERT

The Tutorial is the most basic of basics meant for absolute beginners who have no experience in finance and/or economics. The Tutorial starts by addressing and understanding all the issues in the financial world that moves everything else, be it stocks, currencies, commodities, properties, businesses, bonds, bank products, your money and everything else in-between, both on-line and off-line.

Having said that, even experienced traders find the Tutorial enlightening as it answers questions they never knew to ask in their years of experience.

The Tutorial ends at an intermediary level that arms the student with sufficient skill to manage finances, identify risks, maximise opportunities and become savvier about their hard-earned monies in any or all of the aforementioned areas. Obviously, trading is amongst the skills acquired. The Tutorial is the foundation on which everything else is built upon.

Thereafter, there are various support programs to help the novice traders that need the extra help as the Tutorial can be quite intensive for the slower learners.

# POST-GRADUATE COACHING TUTELAGE

**ONE SOLID WEEKEND OF HANDS-ON APPLICATION**

# UNRIVALED SUPPORT AND CONTINUED LEARNING

Then for the fanatical traders, they have choices to pick in the future to master specific skills in Options Trading, Commodities Trading, Futures Trading, CFDs, Warrants and a host of other Specialist Instruments without having to pay huge premiums for such advanced workshops.

This is not a get-rich-quick program and it certainly is not about becoming financially free in a short time. Nor is it about indicators or fancy charting tricks.

The Tutorial is a balanced blend of macroeconomics, money management, technical risk, psychological management and financial discipline. You are not going to get a more complete syllabus from anybody else on this side of the planet. This I promise you.

## Requirements;

- No prior experience needed (not unless you were trained by industry pros from the floor and not some keyboard warrior who got lucky online)
- Clear head (instead of all the rubbish you read on the net)
- Realistic expectations (forget about millionaire dreams)
- A spirit that is ready for a lot of really hard work ahead. (If you don't like that idea, don't join ... just keep dreaming that making money is very easy or join a guru who sells that idea.)
- A PASSION to grow, learn and love everything life can throw at you.

# NO ONE TEACHES, SUPPORTS OR SELLS THE TUTORIAL ON CONRAD'S BEHALF

EVERY SINGLE SESSION SINCE 2006

## WELL TRAINED, WELL PRACTICED, WELL SUPPORTED, WELL REPUTED

**Conrad** has been an on-line trader since 2004. After a poor start he persisted by going to the US to learn from the likes of John Person (Chicago), Ron Ianieri (NASDAQ), Jon Najarian (NYSE) and a host of other Wall Street professionals between 2006 and 2007. Over the next three years, he further educated himself on economics and humanities under the mentorship of David Caploe, (Hon AB Harvard/PhD Princeton). Today, he is sought after for his intimate knowledge of Macroeconomics, Sector Rotation, Defensive Analysis, Financial Psychology and short-term trading techniques including Swing Trading, Day Trading and Scalping. He is known for his unique and simplified blend of Macroeconomics and Financial Management for his defensive and psychological approach to trading.

Conrad's best-selling publications:

- #1 best-selling co-author of *Secrets of Millionaire Investors* (2007)
- Best-selling author of *Secret Psychology of Millionaire Traders* (2009)
- #1 best-selling co-author of *Profit from the Panic* (2009)
- Best-selling author of *Winning Psychology of Defensive Traders* (2014)
- Creator of *Candlestick Patterns* (2008) and *Breakout Patterns* (2009) Quick Reference Cards
- Creator and owner of the *Candlestick Patterns* and *Breakout Patterns* apps (2016)

Conrad's appearances:

- Conrad has repeatedly been requested as a speaker/trainer with Macquarie Capital Securities, UOB Kay Hian, OCBC Securities, RHB Securities, CIMB Securities, DBS Vickers Securities, Phillip Securities and Phillip Futures.
- Keynote/Content speaker at various business and motivational workshops and podcasts such as 52Traders.
- Repeat guest speaker at Malaysia's Bursa (Exchange), Singapore NTU's Alumni, NTUC, Wealth Expo, Singapore Institute of Management, ShareInvestor's INVEST Fair, the ATIC, Investor's Exchange and SMART Expo
- Regular contributor to INVEST Magazine (ShareInvestor) and the Business Times (SPH).
- Appeared on Channel NewsAsia's 'Cents & Sensibilities' and 'Primetime Morning'.
